

REALIZE THE Potential OF YOUR DONATION

WHAT DOES ALYX DO?

The ALYX System collects only red cells, returning the remaining components to the donor. This means patients can receive blood from fewer donors and donors can give what's needed most.

YOU MAY QUALIFY FOR THE ALYX SYSTEM DOUBLE RED BLOOD CELL COLLECTION PROCEDURE

- **ALYX donors must be between the ages of 17 and 70**
- **Men must be at least 5'1" tall and weigh at least 130 pounds**
- **Women must be at least 5'5" tall and weigh at least 150 pounds**
- **Hemoglobin (your iron level) must be 13.3 grams or higher**

Our staff is well prepared to answer your questions and to help you decide which donation option is best for you.
